Bar Canopy

Thinking within a logic of sustainable design, Penta presents Rosone Barra. This is not a new project, but rather an ingenious way to use the components and elements already in the collection to create original lighting compositions. The Force profile, combined with LED strips and diffusers for an in-line lighting solution, is now transformed into a bar to hang a wide range of ceiling lamps in a linear composition.

Ragionando in un'ottica di design sostenibile, Penta presenta Rosone Barra. Non si tratta di un progetto nuovo, ma di una modalità ingegnosa di utilizzare componenti ed elementi già in collezione per creare inedite composizioni luminose. Il profilo Force, impiegato con strip LED e diffusori per l'illuminazione lineare, si trasforma in un rosone per appendere in linea un'ampia gamma di sospensioni.
